

jackelope gin

*handmade in
small batches*

Several varieties of hand-picked Colorado juniper berries are uniquely infused in our gin and provide the Jackelope's "key note." 7 other botanicals smooth out our gin creating a piney essence, nutty undertones, and citrus throughout. As with all of our products, the Jackelope is craft-distilled in small batches, with Colorado ingredients, in our quaint Palisade distillery!

Our "secret" ingredients:
Several local varieties of juniper, Coriander, Angelica, Oris root, Licorice, Lemon peel/zest, Lime peel/zest, Cassia bark

handmade in
Colorado

**goat
artisan
vodka**

Why Goat? Because those born in the year of the goat tend to be creative and perfectionist? Because Christianity associates goats with Satan? Because Muriel, the goat, represents the educated working class who think for themselves? Nope—we just like 'em.
Cheers, Rory, Bill, Dave
